

OUR CAMPUS

Inpatient Hospital

Cedar Crest Hospital provides psychiatric inpatient treatment to stabilize an immediate crisis and help provide patients of all ages and their families with skills to prevent future crisis situations.

LEGACY Adult Chemical Dependency Program

Intensive inpatient program designed to reclaim adults from harmful dependency on alcohol or other mood-altering drugs.

GENERATIONS Program for Senior Adults

Inpatient program specifically designed for older adults experiencing emotional and/or behavioral problems.

Residential Treatment Center (RTC) for Adolescents

RTC provides a comfortable living space, reflective of a home environment, which is conducive to recovery and healing.

Partial Hospitalization Program "Day Treatment"

Therapeutic day treatment for children and adolescents provides group counseling and helps youth learn important life skills and coping strategies to be successful in school, at home, and in the community.

Swimming Pool & Gym

Our swimming pool and gym are part of a structured recreational therapy program and serve a three-fold purpose: build confidence and skills, provide an outlet for exercise, and (consistent with our values) help participants have fun.

Ropes Course

The elements of the course help patients learn to work as a team while building communication and problem-solving skills.
